N. SALISBURY, M.R.C.V.S.

Council Offices, Whaley Bridge.

Telephone: Whaley Bridge 2163

WHALEY BRIDGE URBAN DISTRICT COUNCIL

A N N U A L     R E P O R T

of the

MEDICAL OFFICER OF HEALTH

For the Year 1966

---

---

Public Health Department,

Town Hall,

Buxton,

Tel. No. Buxton 2061

Derbyshire.

To the Minister of Health and

To the Chairman and Gentlemen.

Mr. Chairman and Gentlemen,

I present the Annual Report on the Health of the Urban District for the year 1966.

It will be noted that this year the Adjusted Death Rate (13.65 per 1,000 population) is higher than the average for England and Wales (11.7). The number of deaths has decreased slightly but there has been a decrease of fifty in the population during the year. If one must compare yearly rates in small populations then those for the Urban District compare favourably with the average for England and Wales.

The main causes of death in descending order were diseases of the heart and circulation with 22 cases (30%), cancer 18 cases (25%) and vascular lesions of the nervous system 15 cases (20%). These three groups accounted for 75% of the total number of deaths.

The total number of deaths for the year was 73. Of these 29 (39%) were aged 75 and over; 44 (60%) were aged 65 and over and 63 (86%) aged 55 and over.

The Meals on Wheels Service, inaugurated in 1962 served a total of 1,746 meals during the year. In November the Goyt Mill Manufacturing Company gave notice of their intention to discontinue the cooking of these meals in their canteen. It was taken over by Midland Caterers Ltd. and served from the Whitehough Works of Messrs. Bernard Wardle Ltd. at a cost of 2/2d per meal.

I am most grateful to the Chairman and Members of the Health and Housing Committee, to the General Practitioners in the area and to the staff of the Health Department for their co-operation and support during the year.

Your obedient Servant,

H.E. NUTTEN

Medical Officer of Health.

Comparability Factors : . . . . .	Births 1.16	Deaths 0.98
Adjusted Birth Rate . . . . .	17.04	
Adjusted Death Rate . . . . .	13.65	

Comparability Factors

Since 1954 the Registrar General has issued an "area comparability factor" for each County District and for the County as a whole. The reason for this is to allow for the way in which the age and sex distribution of the local population differs from that for England and Wales as a whole.

Since 1957 the death rate area comparability factors have been adjusted to take into account the presence of residential institutions in the area.

When the local crude birth and death rates are multiplied by the factor, they are comparable with the crude rate for England and Wales.

WHALEY BRIDGE URBAN DISTRICT COUNCIL

PUBLIC HEALTH INSPECTOR'S REPORT  
ON THE SANITARY CONDITIONS OF THE DISTRICT

For the Year 1966.

Tel. Whaley Bridge 2163  
Council Offices,  
Reservoir Road,  
Whaley Bridge.  
Mr. Chairman and Gentlemen,

I present to you my Annual Report on the sanitary conditions and a brief summary of work done during the year ended 31st December, 1966.

Housing

At the end of 1966 the Council had 341 houses and bungalows of which 211 houses and 52 bungalows had been erected during the post war years. During the same period 87 private houses and bungalows were built.

In December, 1966 the number of applicants for Council houses was 46, only 9 of such applicants not having separate living accommodation.

During the year 23 Homeville type traditional bungalows were erected and roadworks constructed on the Council's site off Buxton Road, Furness Vale and the bungalows (4 two-bedroom and 19 one-bedroom) were let and tenanted in September and October. Elderly persons previously occupying three-bedroom Council houses were allocated tenancies of bungalows, thus relieving these Council houses for occupation by larger families. The bungalows were approved under the Derbyshire County Council's Welfare Scheme and were fitted with intercommunication call bell system linked to the Warden's bungalow (Two-bedrooms). A telephone was also installed in the Warden's bungalow.

Although 23 new bungalows were tenanted during the year the number of applicants for elderly persons bungalows still on the waiting list at the end of the year was 72.

The stone bungalow at 13 Mevril Road, Whaley Bridge which was considered unsuitable for further habitation was demolished and proposals were made for the replacement with a prefabricated two bedroom bungalow.

During 1966 the Council approved 21 schemes for the improvement of houses with the aid of Standard Improvement Grants and the total amount of grants paid was £3,310. Grants were approved in respect of 18 owner-occupied premises and 3 for rented properties.

Details of Improvements completed during the year were as follows :-

Provision of fixed bath or shower . . . . .	22
" " internal W.C. . . . .	24
" " Hot Water Supply . . . . .	19
" " Washbasin . . . . .	22
" " Ventilated Food Store . . . . .	4

No Discretionary Grants were approved for improvements or conversions, under the Housing Act, 1958.

No Improvement Areas were declared under the Housing Act, 1964.

## Other Housing

Details of new houses erected during the year are as follows :-

(a) Local Authority	...	...	...	...	23
(b) Private Construction	...	...	...	...	4

Number of dwellinghouses inspected for housing defects (under Public Health or Housing Acts)	...	72
---	-----	----

Number of unfit dwellings where action was taken to prevent re-letting	...	...	...	6
---	-----	-----	-----	---

Number of defective dwellinghouses rendered fit in consequence of action by Local Authority (Formal or Informal)	23
--	----

Number of houses demolished in Clearance Areas or otherwise	2
--	---

## Rent Act, 1957

No Certificates of disrepair were issued during the year.

## Noise Abatement Act, 1960

No action was necessary under this Act during the year.

## Food Inspection

No case of food poisoning was notified during the year. Those responsible for the management of food premises generally co-operated readily to improve conditions and more satisfactory facilities for hand washing were installed where required.

100% Meat inspection was undertaken by a local firm of Veterinary Surgeons.

There is only one licenced slaughterhouse in the area, this being situated at premises off Market Street, Whaley Bridge. Routine inspections showed that the premises were maintained in a satisfactory condition and the provisions of the Slaughterhouse (Hygiene) Regulations 1958 and the Slaughter of Animals (Prevention of Cruelty) Regulations, 1958 were complied with. The Ministry's Veterinary Officer also made routine inspections of the Slaughterhouse throughout the year.

During the year under review 618 animals were slaughtered and examined.

## Sewerage

The Council's sewers connect up to the main sewers of the Whaley Bridge Joint Sewerage Board and this Board also controls the sewerage disposal works at Furness Vale where the treatment is carried out. The Joint Sewerage Board is comprised of members from the Councils of Whaley Bridge Urban District and Chapel-en-le-Frith Rural District.

A major scheme for the enlargement and modernisation of the Sewage Disposal Works at Furness Vale was commenced and work has made good progress. A 9" relief sewer is also being constructed to connect the main sewer at Horwich End with the main sewer at Whaley Bridge.

Nearly all properties within the district are connected to the main sewerage system excepting those in the outlying areas of Cadster and Fernilee.

Details of foul drainage are as follows :-

Number of houses and premises in district connected to sewers ...	1795
" " " " " " " not connected to sewers	140
" " " connected to main sewerage system during 1966	
(a) Existing houses ... ..	1
(b) New houses ... ..	27

The following extensions to public sewers were carried out to cater for housing development :-

Charlesworth Crescent, Furness Vale	-	219 yards of 6" Sewer
Meadowfields, off Hockerley Lane, Whaley Bridge.	-	156 yards of 6" Sewer

#### Closet Accommodation in the Area :

Premises with Pail Closet Accommodation	...	...	...	12
" " Privy accommodation	...	...	...	2
" " W.C. "	...	...	...	1921

During the year 9 pail closets were converted to W.C's.

#### Rag Flock Act

There are no premises within the urban area where rag flock is manufactured or sold.

#### Refuse Collection and Disposal

The collection of refuse was carried out by direct labour using a 20 cu. yd., Pakamatic refuse collection vehicle, with a bin collection from the rear of premises. A regular collection was maintained although refuse had to be transported for disposal at a tip over 6 miles outside the Council's area.

The Council endeavoured throughout the year to find a suitable site for controlled tipping within the urban area, but no suitable site could be obtained. Further efforts to obtain a site within reasonable distance outside the Council's area were also unsuccessful and alternative methods of disposal were considered by the Council but were regarded as either impracticable or uneconomical for an area with such a relatively small amount of refuse for disposal. Approaches were also made to neighbouring local authorities with a view to forming a joint scheme for refuse disposal but no progress has as yet been made. Fortunately the Council was granted permission by the Buxton Borough Council to temporarily use the controlled tipping facilities at Buxton and all refuse was transported to Buxton for disposal, on agreed terms, at the Corporation's controlled tipping site at Hogshaw.

#### Offices, Shops and Railway Premises Act, 1963.

During the year one new wholesale shop was registered under the above Act and the total number of registered premises at the year end was 55, made up as follows :-

Offices . . . . .	9	No. of persons employed . . . . .	36
Retail Shops . . . . .	38	-do- . . . . .	151
Wholesale Shops & Warehouses . . . . .	2	-do- . . . . .	17
Catering Establishments . . . . .	6	-do- . . . . .	23
	<u>55</u>		<u>227</u>

Of the 227 persons employed in registered premises 100 were males and 127 females.

## Moveable Dwellings

There is only one licensed caravan site in the area and one of the conditions of licence restricts the accommodation to not more than three caravans. The caravan site is of the permanent residential type. No difficulties arose concerning the control of caravans within the area.

## Animal Boarding Establishments

Three premises were registered as animal boarding establishments and conditions were satisfactory to comply with the requirements of the Act.

## Sanitary Inspections

Number of inspections made under Public Health, Housing Acts, etc. ... 1096

Defects or Nuisances :-

Number discovered	...	...	...	...	...	...	...	...	313
Number abated with or without Notice	...	...	...	...	...	...	...	...	304

Number of Notices served :-

Informal Notices	...	...	...	...	...	...	...	...	31
Statutory Notices	...	...	...	...	...	...	...	...	2
Legal Proceedings	..	...	...	...	...	...	...	...	1

Details of Public Health Inspections and Nuisances abated :-

	<u>Inspections</u>	<u>Nuisances abated</u>
Accumulations or Deposits	11	3
Housing Repairs	164	72
Drains - Repaired or renewed	53	14
" Cleared of obstruction	77	52
Public Sewers - Repaired or cleared of obstruction	35	23
Gully Traps - Blocked or defective	35	14
Provision of Dustbins	17	9
Defective Closet Accommodation	76	16
Defective Soil Pipes	18	10
Defective Sink Waste Pipes	28	11
Defective Water fittings	17	9
Public Conveniences & Urinals	55	1
Rodent Infestations	116	65
Slaughterhouses	56	1
Animals or Birds improperly kept	12	2
Animal Boarding Establishments	8	-
Foul condition of houses	7	1
Factories & Workshops	72	2
Bakehouses	13	-
Food Premises	26	1
Offices, shops, etc.	113	-
Moveable Dwellings	20	1
Miscellaneous	67	6

## Factories

There are 42 Factories and Workshops in the area, the number of inspections and action taken being given in the following table :-

Premises	Inspections	Notices Served	Occupiers Prosecuted
Factories (With Mechanical Power)	35	-	-
Factories (Without Mechanical Power)	24	-	-
Other Premises	13	-	-

Defects found in Factories were as follows :-

Particulars	Number of Defects		
	Found	Remedied	Referred by H.M. Inspector
Want of Cleanliness (S.1)	-	-	-
Overcrowding (S.2)	-	-	-
Unreasonable Temperature (S.3)	-	-	-
Inadequate Ventilation (S.4)	-	-	-
Ineffective Drainage of Floors (S.6)	-	-	-
Sanitary Conveniences (S.7)	-	-	-
(a) Insufficient	-	1	1
(b) Unsuitable or defective	1	1	-
(c) Not separate for sexes	-	-	-
(d) Other offences against the Act	-	-	-

#### Outwork

Number of outworkers on Register ... .. 7  
(All outworkers are engaged on sewing)

Number of cases of work undertaken on unwholesome premises Nil

#### Food Inspection

During the year the following foodstuffs were voluntarily surrendered and condemned as unfit for human consumption :-

Foodstuffs	Tins/Bottles/Packs	Weight (to nearest lb.)
Cooked Ham	12	107 lbs.
Other prepared meat products	17	42 lbs.
Fruit and Vegetables	10	19 lbs.
Fish	18	5 lbs.

I am, Mr. Chairman, and Gentlemen,

Your obedient Servant

A. McLANE

Public Health Inspector.
